

## RUMMY GAME

(For 3 or more players)

1. Deal each player five cards face down and place the remaining cards face down in the draw pile (if using sets with more than 34 cards, deal each player seven cards to make the game more challenging.)
2. The player to the left of the dealer may start by taking a card from the top of the draw pile. If the card makes a match with a card in the players hand, they may lay the match down and draw again. If no match is made, the player must make a choice to keep or discard the card he/she has drawn. If the card is kept, another card from his/her hand must be discarded. Each player **MUST** discard one card per turn.
3. After the first player, each player also takes a turn. If the draw pile is depleted, shuffle the discard pile and place face down. The game then continues.
4. The game ends when a player matches all of the cards in his/her hand and discards his/her last card. At this point, the player with the most matches wins.
